

The Brain Project *Foundation*

Our Mission

Our mission is to provide comprehensive, free brain and spinal treatment to those who would not otherwise have access to such treatment.

We aim to be the backbone of Africa's Healthcare Ecosystem.

A photograph of two surgeons in an operating room. The surgeon on the left is wearing a green surgical gown and a blue cap, with a white mask covering the lower half of their face. The surgeon on the right is wearing a blue surgical gown and a blue cap, with a white mask and a headlamp. They are both focused on a surgical site. In the background, there is a piece of medical equipment with several knobs and a small screen.

About The Brain Project

The backbone of Africa's Healthcare Ecosystem.

Founded in 2017, the BRAIN Project is a coalition of board-certified US neurosurgeons, orthopedic surgeons, dental surgeons, and other medical specialties of African descent dedicated to building reliable healthcare systems that can service and support Africa. Our skilled medical professionals provide free medical checkups, surgeries, medical equipment and supplies. Additionally, they also educate local medical teams in these underserved regions and communities. The focal point of the foundation is to prove through rigorous medical practices and growth that there is measurable economic value in providing vital health care to African communities.

Our Impact To Date

\$7 *million*

worth of medical
equipment and supplies
donated

250+

patient cases examined

200

hours of free medical
procedures and
operations offered

50

surgeries performed

countries served

Your Support Matters

With your support we are able to acquire new medical equipment, increase our hours on the ground, partner with new doctors, and save lives where it matters.

With your support we are able to acquire new medical equipment, increase our hours on the ground, partner with new doctors, and save lives where it matters.

\$20,000

Sponsor a patient surgery: Cover all costs including laboratory, radiology, medications and consumables, IPD consultation visits, nutritional plans and associated professional fees.

\$5,000

Sponsor a medical professional on the next outreach mission.

\$1,500

Contribute to our medical supply fund. We donate over \$1M worth of medical supplies and equipment each year during our outreach missions to each African country.

A Message from the Gala Committee

We are ecstatic to have you join us at our inaugural fundraising gala, and mark the official launch of the Brain Project Foundation. We are dedicated to enriching the healthcare ecosystem across Africa by partnering with regional hospitals and medical centers to provide free neurosurgeries, orthopedic surgeries, dental surgeries, and many more medical procedures. Our mission trips place an emphasis on medical education and knowledge transfer between our medical professionals and our fellow colleagues in Africa. Finally we donate all the medical equipment & supplies shipped to hospitals across the continent.

We thank you for your participation and are honored to have you join us for the launch of the BRAIN Project Foundation.

Message from Brain Project Board Member

DIDIER DJ MBENGA (2X NBA CHAMPION)

“ ”

The Brain Project is actually saving lives and I have witnessed this first-hand while taking part in the Ghana 2018 outreach. This is not just a nonprofit, we are a family that is passionate about improving the health of our brothers and sisters in Africa.

We strongly believe the most critical step for socioeconomic growth in Africa begins with quality healthcare for the people. The most important resource in Africa is not the gold, diamonds, or minerals, it is a healthy and thriving people.
